

STATE-OF-THE-ART ENGINEERED BLASTING AND FINISHING SYSTEMS

Serving the corrosion control industry since **1975**

ABRASIVE BLASTING SYSTEMS | PAINT APPLICATION TECHNOLOGY | FACILITY PLANNING & CONSULTING | WORKFLOW PLANNING

INTEGRATED SOLUTIONS. SINGLE SOURCE.

BLASTONE IS A GLOBAL LEADER FOR ABRASIVE
BLASTING AND INDUSTRIAL COATING EQUIPMENT,
CONSUMABLES AND KNOW-HOW.

PERFORMANCE

SUPERIOR ABRASIVES

SUPERIOR EQUIPMENT

SUPERIOR KNOW-HOW

Originally established over 40 years ago to provide technical consulting, BlastOne has grown to become a single source supplier of blasting equipment, abrasives and know-how to customers all over the world.

BlastOne operates internationally from several offices across Australia, New Zealand, North America and UK.

We stand behind our brand claim of Superior Performance. It's something we define as 'Performance³' – the result of combining superior know-how with superior abrasives and superior equipment.

In short, it's something that delivers greater cost-efficiencies for our customers.

SUPERIOR PERFORMANCE IN EVERYTHING WE DO.

With decades of technical knowledge and engineering experience, we can provide intricate, mechanized turn-key finishing solutions achieving new levels of manufacturing efficiency and energy savings.

CUSTOMIZED
BLASTING SOLUTIONS.

HIGH PERFORMANCE BLASTING AT ANY SCALE AND IN ANY WEATHER.

OUR CUTTING EDGE BLAST ROOM DESIGNS RESULT IN LESS WASTE,
A SAFER WORKFLOW, INCREASED PRODUCTIVITY AND MINIMAL
IMPACT ON THE ENVIRONMENT.

We offer custom designs to meet any production requirement from small parts to heavy machinery and structural steel components. Our blasting chambers are designed to incorporate monorail systems, product hoists and many other additional options to enhance your blasting operations.

WORLD-CLASS TRAINING.

LEARNING THE LATEST TECHNIQUES AND WORKFLOWS ARE CRUCIAL TO KEEPING YOUR PROJECTS ON TIME AND ON BUDGET.

CLASSROOM TRAINING

With over 40 years of experience on over 10,000 projects in 25 countries, our senior project managers and engineers will train your staff using leading edge technology, best practices, and hands-on skill development. These classes are certified by SSPC and will provide your team with C7 and C13 accreditations.

ON-SITE TRAINING

Put 40 years of experience to work on your site. When our instructors come to you, your team learns and practices on the equipment they'll use every day. The result is a custom, one-of-a-kind training session designed to ensure your front-line employees learn skills and techniques that are directly transferable to the job site. Customers often say that our on-site training saves them both time and money by minimizing travel time and costs.
